

Easy-Flo Pelletized Compost is a natural turf care product derived from leaf and yard trimmings. It does not contain any manure, animal by-products or food waste.

Easy-Flo Pelletized Compost is produced from mature compost. It is processed according to the principals developed by the Compost Council of Canada (CQA). Our compost is processed using the most advanced composting technologies to ensure that optimum conditions are reached to kill weed seeds and harmful pathogens while still retaining the beneficial microbes.

Easy-Flo Pelletized Compost meets all the requirements for recommended uses for soil amendment and topdressing
